Lynnfield applies for grant to renovate existing Library

MBLC rejects
application, citing
concerns with the
existing building

MBLC building concerns included:

- "The **limited size of the site** and the **lack of any parking** are the primary deficiencies"
- "the elevator, toilets and circulation office will likely need to be demolished"
- "the proposed building will fully occupy the existing site... there is no opportunity for future expansion."
- "The existing building is already a culmination of 3-4 building additions and renovations. This has resulted in a layout with sacrifices to efficiency and operations."
- "The MBLC questioned whether the project should call for **demolition of the entire** building except the 'original* schoolhouse and construct a new building."
